Suitable for use with cable diameters 10 to 51mm.
Manufactured from LSOH polymer.
Designed for use with Afumex LSOH and Saffire OHLS cables.
Overlapping self-adjusting ranges.
Sunlight (UV) and weather resistant.
one piece, single fixing design.
Can be double stacked on a single fixing.
Operating temperature -40ºC to +40ºC.
Tested in accordance with BS EN 50368.
LUL APR Product ID 1259.

The Afumex telcleat is an LUL approved single piece cleat which provides protection against all weather conditions and simple installation in a one piece, single fixing design.

Features and Benefits

- Suitable for use with cable diameters 10 to 51mm.
- Manufactured from LSOH polymer.
- Designed for use with Afumex LSOH and Saffire OHLS cables.
- Overlapping self-adjusting ranges.
- Sunlight (UV) and weather resistant.
- One piece, single fixing design.
- Can be double stacked on a single fixing.
- Operating temperature -40ºC to +40ºC.
- Tested in accordance with BS EN 50368.
- LUL APR Product ID 1259.

Method of Fixing

The cleat is opened up and placed around the cable so that the end of the cleat containing the slot will be in contact with the mounting surface, except for the 385LSF01, which should be reversed to put the slot uppermost. In this case an M5 washer should be used to prevent the nut entering the slot of the cleat.
