

Cleats & Cable Fixings

Description

- > Suitable for cables 10-51mm in diameter
- > 8 sizes in range
- > Overlapping self adjusting ranges
- > Sunlight (UV) and weather resistant
- > One piece, single fixing design
- > Can be double stacked on one fixing
- > Operating temperature -70°C to +70°C
- > Black low-density polyethylene - unaffected by corrosive environments, oils and many chemicals

Telcleat

385AA08	39.3	51.1	10	50	62	91	26	82	35	3 1/4 x 12	M7 x 80	

Method of Fixing

The cleat is opened up and placed around the cable so that the end of the cleat containing the slot will be in contact with the mounting surface, except for the 385AA01, which should be reversed to put the slot uppermost. In this case an M5 washer should be used to prevent the nut entering the slot of the cleat.

When mounting directly on "Unistrut" or "Leprack" type channel section an adaptor plate should be used (please see separate datasheet).

SWL = Safe Working Load
FOS 3 = Values include a Factor of Safety of 3

Direction of safe working load
